Dear Mr. Sarmiento:

EPA has reviewed the draft **Benchscale Treatability Test Plan for Recycling Hunters Point Sandblasting Grit into Asphalt**. We have no major comments with the draft plan, but wish to note the following:

1) Previous asphalt work indicated problems with obtaining uniform coating of the asphalt on the aggregate and grit. We recommend frequent monitoring of the treated sample to insure uniform mixing.

2) Quality Assurance was not addressed in this workplan. The acceptability of the test results will depend on documentation that appropriate QA has been carried out by the analytical laboratory.

If you have any questions, please call me at (415) 744-2388.

Sincerely,
