Mr. Keith Takata
Deputy Director
Superfund Program
Hazardous Waste Management Division
U.S. Environmental Protection Agency
Region IX
75 Hawthorne Street
San Francisco, CA 94105-3901

Dear Mr. Takata:

As provided for in the Timeframes for Resolution of Hunters Point Schedules, a Management Plan for Hunters Point Annex is provided as enclosure (1). The Management Plan identifies the Navy's organizational roles with respect to the Installation Restoration Program and reaffirms the Navy's commitment to the timely and expeditious investigation and cleanup of Hunters Point Annex.

With our increased emphasis on Hunter Point Annex, we believe that we have taken the necessary steps to assure professional program management and have made a significant commitment of resources to deal with any perceived deficiencies. We again assert that good cause exists for our extension request and that our attempt to streamline the process, to develop a new parcel based cleanup approach, and to partner with the agencies signifies the Navy's commitment. Most critical to the success of our efforts will be "partnering" between the Navy and the agencies. Teamwork, cooperation, and working together to make this process run more smoothly and efficiently is the key. We look forward to taking this very positive step with you.

Our Commanding Officer, Captain Robert Moeller, would like to invite you to meet with him at your convenience to discuss Western Division's role in the Installation Restoration Program and, more specifically, the Navy's commitment at Hunters Point Annex. Please feel free to contact me to schedule this meeting. I may be reached at (415) 244-2501.

Sincerely,

GERALD KATZ
Director, Office of Environmental Management
