Subject: Hunters Point Phase 1B Ecological Risk Assessment Draft
Final Work Plan and Field Sampling Plan

Dear Mr. Song:

The purpose of this letter is to confirm our agreement that EPA's comments regarding the Hunters Point Phase 1B Ecological Risk Assessment (ERA) Draft Final Work Plan and Field Sampling Plan will be submitted by August 11, 1995. The Navy had originally requested that EPA's comments be submitted by July 21, 1995. However, EPA did not receive the Quality Assurance Project Plan (QAPP) for the Phase 1B ERA until July 10, 1995 and has still not received the Navy's response to agency comments on the Draft Work Plan. Therefore, because the QAPP is an integral part of the Phase 1B Work Plan we would rather provide one set of comments resulting from our review of all the pertinent documents. Further, based on my discussions with you, submittal of our comments by August 11, 1995 will not adversely impact the overall field schedule because we agree with the conceptual approach presented in previous meetings and do not anticipate that our comments will result in significant changes to the field effort.

If you have any questions regarding this letter, please call me at (415) 744-2410.

Sincerely,

A handwritten signature in cursive script that reads "Sheryl Lauth".

Sheryl Lauth
Remedial Project Manager
