Protection

Re: **Completion of Parcel D Feasibility Study, Hunters Point Shipyard,
San Francisco, California**

This is in response to your letter dated August 29, 1997 regarding the completion of Parcel D Feasibility Study. In the letter you stated "It is our understanding from discussions at the 6 May 1997 Hunters Point Shipyard BRAC Cleanup Tem meeting, that the California Department of Toxic Substances Control did not find it necessary to provide written comments on the Draft Final Parcel D Feasibility Study." This is not correct. The Department of Toxic Substances Control, due to change of personnel, was unable to review the subject document and provide meaningful comments at the time the document was submitted. Instead of holding up the progress of the project, the Department chooses to be silent with regard to the subject document.

If you have any questions, Please contact me at (510) 540-3822.

Sincerely,

Chein Ping Kao, P.E.
Senior Hazardous Substance Engineer
Office of Military Facilities
