Captain John Jones
Commander Long Beach Naval Station
Long Beach Naval Station
Long Beach, California 90822-5000

Dear Captain Janov and Jones:

**FINAL REMEDIAL SITE EVALUATION (RSE) REPORT SITE 6A - BOAT DISPOSAL AREA
FOR NAVAL STATION LONG BEACH, LONG BEACH.**

The California Department of Toxic Substances Control (Department) has completed its review of the Addendum to the Final RSE Report for Site 6A dated April 15, 1994, for the Long Beach Naval Station, Long Beach. The Final RSE Report for Site 6A was prepared for SouthWest Division Naval Facilities Engineering Command by Bechtel National Corp.

The Final RSE Report for Site 6A has been prepared to provide information which will support Navy on leasing this property to Port of Los Angeles (POLA). POLA is planning to lease this site for the construction of a railroad separation and an expansion road through Site 6A. In addition, the RSE Report will fulfill the requirements for the Remedial Investigation for soils only. Groundwater investigation was not included on the RSE but will be conducted as proposed in the RI/FS workplan dated October 1992. The Department is satisfied with the Addendum to the Final RSE Report for Site 6A. As a result, the Department hereby approves the Final RSE report dated March 7, 1994.

If you have any questions regarding this letter please contact Mr. Alvaro Gutierrez of my staff at (310) 590-5565.

Sincerely,

A handwritten signature in cursive script, appearing to read "Albert A. Arellano Jr.".

Albert A. Arellano Jr., P.E., Chief
Region 4 Base Closure Unit
