Engineering Command (Attn: Alan Lee, Code 1832.AL)

Subj: TECHNICAL MEMORANDUM NO. 5, DRAFT FISH SAMPLING AND ANALYSIS
PLAN FOR NAVAL STATION LONG BEACH DATED 21 JULY 1994

1. Subject document was reviewed and we only have one comment. In table 1, the number of fish collected for each species has a discrepancy. There is no "Number of Fish" identified for Barred Sand Bass, and there is a "Number of Fish" listed at the end of the table, but there is no "Scientific Name" or "Common Name" listed. Could this data be out of sequence? Please check table and correct as necessary.

2. Point of contact on this matter is Duane Rollefson at extension (310) 547-7086.
