Subj: TECHNICAL REVIEW COMMITTEES (TRC) IN THE INSTALLATION RESTORATION (IR) PROGRAM

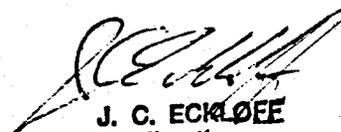

Encl: (1) CNO ltr 5090 Ser 453/8U586409 of 18 Oct 88

1. Enclosure (1) requests that TRCs be established by 15 January 1989 at all installations that have Remedial Investigation/Feasibility Study (RI/FS) in progress under the IR program.
2. For COMNAVAIRPAC and COMSUBPAC. Request that your activities listed below take paragraph 3 of enclosure (1) for action.

NAS Alameda
NAS Moffett Field
NAS Whidbey Island
NAS Fallon
NAS Lemoore
SUBASE Bangor

Send a copy of the letter that initiated each TRC and the minutes from the first meeting to CINCPACFLT by 20 January 1989 for a consolidated response to CNO.

3. For all. Based on discussions with PACNAVFACENGCOM and WESTNAVFACENGCOM, the other CINCPACFLT activities listed in enclosure (1) have not progressed to the RI/FS phase and therefore, do not need TRCs established by January 1989. However, request that all activities establish TRCs and send the minutes of the first TRC meeting within 90 days of initiation of a RI/FS.
4. Assistance in establishing the TRCs should be obtained by contacting the Environmental Branch of the local Engineering Field Division.
