Additional Distribution (In Addition to Attendees)							

Description of Discussion/Action Items: (Page 2)

Background:

This meeting served as an RSE project review for CTO 027.

Discussion items to note included:

Aklile Gessesse provided an overview of RSE sampling activities which took place at Site 6A between September 27th and October 1st. Aklile concluded with a recap of the overall schedule and noted that soil analysis results would be presented at the next project review meeting scheduled for November 10th at NAVSTA.

MEETING MINUTES			
Item No	Description of Discussion/ Actions Items	Responsible Individual	Due Date
1	Betsy Mitchell requested that Bechtel investigate all remedial options in the event a remedial action is warranted, and not limit the options due to concern over impacting the design of the future railroad. POLA is willing to modify the railroad design to accommodate the remedial alternative.		
2	Rich Davidson requested a copy of a site drawing which delineates the waste area. Krish Kapur responded that a map would be available at the next project review meeting scheduled for November 10th.	Aklile Gessesse	11/10/93
3	Due to an anticipated absence, Betsy Mitchell has requested a copy of the sampling laboratory results prior to the November 10th meeting date.		
4	Krish Kapur informed Betsy that a data summary, scheduled to be presented at the November 10th meeting, would be forwarded to her on 11/9/93. Krish added that raw analytical data would not be available at the November 10th meeting for review since the raw data must undergo validation prior to release.	Aklile Gessesse	11/9/93
