Captain John Pickering
Commander Long Beach Naval Station
300 Skipjack Road
Long Beach, California 90822-5099

Dear Captain Pickering:

DRAFT FINAL ADDENDUM TO RI/FS WORK PLAN AND RISK ASSESSMENT WORK PLAN FOR NAVAL STATION LONG BEACH, LONG BEACH, CALIFORNIA

The California Department of Toxic Substances Control (Department) has completed its review of the *Draft Final Addendum to RI/FS Work Plan and Risk Assessment Workplan (Draft Final Addendum)*, dated March 22, 1995, for Naval Station Long Beach. The *Draft Final Addendum* was prepared for SouthWest Division Naval Facilities Engineering Command by Bechtel National, Inc.

The *Draft Final Addendum* has adequately addressed the Department comments. The Department has no objection in allowing the data analysis to proceed but the Navy will have to submit a final version of this document for concurrence. In addition, the Department would like a meeting with the Navy to discuss findings and interpretation of the data collected at Site 7. Furthermore, the Department requests that the Navy submit this data in electronic form to the Regional Water Quality Control Board, Los Angeles Region as it is available.

If you have any questions regarding this letter, please contact me at (310) 590-5565.

Sincerely,

A handwritten signature in cursive script that reads "Alvaro Gutierrez".

Alvaro Gutierrez
