Captain John Pickering
Commander Long Beach Naval Shipyard
300 Skipjack Road
Long Beach, California 90822-5099

Dear Captain Pickering:

**FINAL ADDENDUM TO REMEDIAL INVESTIGATION/FEASIBILITY STUDY (RI/FS)
WORK PLAN AND RISK ASSESSMENT WORK PLAN FOR NAVAL STATION LONG
BEACH, LONG BEACH, CALIFORNIA, SITE 7 - HARBOR**

The California Department of Toxic Substances Control (DTSC) has completed its review of the *Final Addendum to RI/FS Work Plan and Risk Assessment Work Plan (Final Addendum) for Naval Station Long Beach, Long Beach, California, Site 7 - Harbor*, dated May 24, 1995, for Naval Station Long Beach. The *Final Addendum* was prepared for SouthWest Division Naval Facilities Engineering Command by Bechtel National, Inc.

The *Final Addendum* is an addendum to the RI/FS Work Plan for Long Beach Naval Complex and a Risk Assessment Work Plan for Long Beach Site 7-Harbor, which is part of Long Beach Naval Station and Long Beach Naval Shipyard. The main purpose of this document is to link prior technical plans prepared for Site 7-Harbor such as the Risk Assessment Work Plan, Fish Sampling and Analysis Plan, and Sediment Sampling and Analysis Plan.

The *Final Addendum* has addressed DTSC's comments. As a result, DTSC hereby concurs with the *Final Addendum*, dated May 24, 1995, submitted by the Navy for Site 7-Harbor. Furthermore, DTSC is waiting for the data results of the field investigation and how the Navy plans to integrate all data gathered into the RI/FS for Site 7 - Harbor.

Finally, DTSC is available for a meeting to discuss any issues regarding Site 7 - Harbor. If you have any questions regarding this letter, please contact me at (310) 590-5565.

Sincerely,

A handwritten signature in cursive script that reads "Alvaro Gutierrez".
