LONG BEACH NAVAL COMPLEX
RESTORATION ADVISORY BOARD

Dear Board Co-Chairs:

It is with deep regret that I submit my resignation from the RAB. The present climate at work has necessitated this decision. Issues have arisen which obligates me to focus all my energies here at work. It would be unfair to the RAB if I continued my membership knowing that I cannot commit to attend all the meetings.

I know that the work has just begun; the bulk of the task is still to follow. But the difficulty of the task is tempered by members of the RAB willing to communicate and work towards a common goal. I applaud the RAB for their accomplishments thus far. Please convey my best wishes to the members for their continued success. Thank you for the experience.

Sincerely,
