Mr. Donald W. Rice
Director of Environmental Management
Port of Los Angeles
425 South Palos Verdes Street
P.O. Box 151
San Pedro, CA 90733-0151

Dear Mr. Rice:

The Navy has completed its review of the Port of Los Angeles Waste Management Plan and Site-Specific Health & Safety Plan (Addendum #1 & #2) dated October 1995. Based on this review, we have the following comments on the Waste Management Plan:

- The correct building number for Building 82 is Building 81.
- Paragraphs 2.2 & 2.3. The Port needs to ensure that the monitoring wells on the northeastern corner of Building 32 will not be impacted by the demolition and grading operation and by the construction of the concrete gutter.
- Paragraphs 3.1 & 4.3. The Pre-Draft Building 32 Site Assessment Report Supplement dated 26 October 1995 is now available for review (a copy is included). Please incorporate the results of this investigation into the Port's addendum Waste Management Plan.
- Paragraph 4.3.3. The Port should use the Navy's Hazardous Waste Generator Identification number for disposal of the waste. The Hazardous Waste Manifest should be prepared by the Port and signed by a representative of the Long Beach Naval Shipyard.

If you have any questions on the comments, please feel free to contact Mr. Duane Rollefson at (619) 532-3455.

Sincerely,

ALAN K. LEE
BRAC Environmental Coordinator
By direction of
the Commanding Officer
