Bob Johnson, Project Superintendent, OHM
Mary Schnieder, Senior Chemist, OHM

Agenda Topics

- 1) Introductions
- 2) Discussion of Review Comments on Draft Removal Action Site Closure Report, OHM, October 15, 1996.
 - Martin Hausladen Comments
 - Alvaro Gutierrez Comments
- 3) Review Schedule/Action Items

1) Introductions

2) Discussion of Review Comments on Draft Removal Action Site Closure Report Report, OHM. October 15, 1996.

Martin Hausladen Comments:

1. Section 2, Page 2-1, Table 2-1 List of Points of Contact.
Martin Hausladen's correct telephone number is (415)744-2388. Clair Best should be replaced by Jennifer Rich, a Public Participation Specialist at (310)590-4914. Ron Okuda should be replaced by Sharon Lemieux, an Environmental Assessment and Reuse Specialist at (310)590-4873. Alvaro Gutierrez' title is Hazardous Substance Engineer.
2. Appendix D, Photographic Log of Excavation. South View of Excavation.

DRAFT

A drum lid appears in the photograph. Please provide additional explanation that the drum lid was found, as is in the excavation and was disposed with the soils. The text should explain the presence of the drum lid in the context of the historical disposal actions at the site.

3. Appendix D, Photographic Log of Excavation. North Wall of Excavation. Please provide additional explanation that the object shown in the photograph is a fire hose.

Alvaro Gutierrez comments:

1. Page ES-1. The base was closed September 30, 1994, not 1996 as listed.
2. Page ES-1, third paragraph. The RI report was submitted for review in July 1996 pending agency concurrence.
3. Page ES-2. Please remove blank placeholder tables.
4. Page ES-3. Please provide documentation from the vendor the backfill material used is clean.
5. Page ES-3, last paragraph. Please make sure that the recommendations apply to the AOC not the entire IR site.
6. Figure ES-3 (also Figure 4-1). Some of the callouts for the sample locations are inconsistent using 1, 2, and 3 digits. The second note contains extra text.
7. Section 1.3, Page 1-6. The RI report was submitted for review in July 1996 pending agency concurrence
8. Section 3.4.3, Page 3-4. Please note that the chain-of-custody documents are located in Appendix G, Analytical Laboratory Reports.
9. Section 3.4.4, Page 3-5. The sample identifications numbers listed in the text do not agree (in format) with those on the figures.
10. Section 3.6, Page 3-6. Please add the documentation that the backfill soil is clean to the Appendix F, Compaction Test Results.
11. Section 4.0. Sample identification number formats differ between text and graphics.
12. Section 4.1, Page 4-1. Please provide additional description and reasons for the observed variability between field duplicate 18536-009 and the sample 18536-001.

DRAFT

3) Review Schedule/Action Items

Alvaro will provide review comments on Section 4 by next Monday (10/21). (These comments were telephoned to Gordon Alexander on 10/21 and incorporated, above). The data validation and compaction testing results will be submitted by OHM under separate cover as soon as they are available. These comments will be incorporated by OHM and the document will be finalized by 11/1.
