Gentlemen:

This is in connection to Contract N47408-92-D-3056, Delivery Order Nos. 0007 & 0008.

The Government's review of CDRL Item #A002, Site Management Plan, under D.O.#0007, forwarded by IT Corp. letter 305924-ITNHO-0011 of December 6, 1993 is considered to be substantially complete and technically acceptable. However, the CDRL is considered acceptable contingent on receipt of clarification correspondence. You are requested to provide a letter summary of comment responses to those comments provided by the Regulatory agencies.

The Government's review of CDRL Items #A011, Reinforcement Drawing, and A012, Shotcrete Mix Design, under D.O.#0008, forwarded by IT Corp. letter 305957-ITCPR-0002 of November 10, 1993 are considered to be substantially complete and technically acceptable. Additionally, the negotiated task of preparing a "Fact Sheet" was not incorporated into the specifications. This task was requested by Mr. Joseph Joyce, RPM, prior to negotiations and was inadvertently omitted from the final specification following negotiations. Enclosure (1) includes this task item as CDRL Item #A014 and is forwarded for processing as a modification to reflect the negotiated tasking.

Nothing in this letter should be construed as a change to the contract requirements. If any such instance is perceived by your firm, the Contracting Officer should be notified immediately.
