Commander Long Beach Naval Shipyard  
300 Skipjack Road  
Long Beach, California 90822-5099

Dear Captain Janov and Jones:

**REMOVAL ACTION WORK PLAN FOR IR SITE 11 - HILLSIDE EAST DRYDOCK 1,  
LONG BEACH NAVAL SHIPYARD, LONG BEACH**

The California Department of Toxic Substances Control (Department) has completed its review of the Removal Action Work Plan for IR Site 11 - Hillside East Drydock 1 dated December 1993, for the Long Beach Naval Shipyard, Long Beach. The Removal Action Work Plan was prepared for SouthWest Division Naval Facilities Engineering Command by Bechtel Engineer Corp.

The Removal Action Work Plan for IR Site 11 is an interim corrective action to provide immediate protection to human health and the environment for a minimum of five years. The Department is satisfied that all of the Department's and RWQCB's comments submitted on the Site Management Plan dated November 1993 have been sufficiently addressed in the revised version. As a result, the Department is hereby concurring with the Removal Action Work Plan for IR Site 11 - Hillside Drydock 1 dated December 1993.

In addition, the Department has already given verbal approval of the Removal Action Work Plan to the Navy so that implementation could start as soon as possible.

If you have any questions regarding this letter please contact Mr. Alvaro Gutierrez of my staff at (310) 590-5565.

Sincerely,

  
Albert A. Arellano Jr., P.E., Chief  
Region 4 Base Closure Unit
