Lieutenant Commander J.L. Snyder
Civil Engineer Corps, U.S. Navy
Long Beach Naval Station
Long Beach, California 90822-5000

Dear Captain Janov and Commander Snyder:

FINAL SUPPLEMENTAL RCRA FACILITY INVESTIGATION WORKPLAN AND INTERIM CORRECTIVE MEASURE EVALUATION WORKPLAN (INSTALLATION RESTORATION PROGRAM RSE WORKPLAN) FOR SITE 6A: LONG BEACH NAVAL SHIPYARD AND LONG BEACH NAVAL STATION (EPA ID NO. CA6170023109)

The California Department of Toxic Substances Control (Department) has completed its review of the Final Supplemental RCRA Facility Investigation (RFI) and Interim Corrective Measure Workplans (RSE Workplan) for potential soil contamination at Site 6A. The workplan was submitted in partial fulfillment of, and in accordance with, the RCRA Corrective Action requirements of the Hazardous Waste Facility Permit issued to the Long Beach Naval Shipyard in May of 1990.

The final RSE Workplan, dated September 13, 1993, included revisions based on the Department's and the Regional Water Quality Control Board's (RWQCB) general and specific comments on the August 20, 1993 draft RSE Workplan. We are satisfied that all of the Department's and RWQCB's comments have been sufficiently addressed in the revised version. As a result, the Department is hereby approving the final RSE Workplan.

The RSE Workplan for Site 6A includes the activities scheduled under the Long Beach Naval Complex basewide RFI (RI/FS) Workplan which was finalized in September 1993. Upon completion of the workplan activities and following submittal to, and approval by, the Department of a Final RSE Report, the Navy may proceed to submit to the Department a Corrective Measures Study and/or Statement of Basis for proposed final and interim corrective measures for soil contamination at Site 6A.

Captain Barry Janov
Lieutenant Commander J.L. Snyder
October 21, 1993

The Department has already given verbal approval of the RSE Workplan to the Navy Southwest Division Facilities Engineering Command so that implementation of the workplan could be scheduled and conducted accordingly. The Department is aware that field work for the RSE Workplan was conducted the week of September 27, 1993.

If you have any questions, please contact Mr. Craig O'Rourke (Regulatory Project Manager for the RCRA Corrective Action at the Long Beach Naval Complex) of my staff at (310) 590-4875.

Sincerely,

D. (Anand) R. Rege
Unit Chief
Facility Permitting Branch
