We have received and reviewed the Navy's Response to Comments on the Proposed Workplan for Site Characterization and Analysis Penetrometer System Project at the Long Beach Naval Shipyard, dated September 11, 1996. Board staff also attended a comment resolution meeting with the Navy on September 18, 1996. Our comments on the proposed workplan, forwarded to the Navy on September 17, 1996, have been appropriately addressed. We have no objections to the workplan at this time.

If you have any questions regarding this matter, please contact Hugh Marley at (213) 266-7669.
