**DRAFT ADDENDUM TO THE FINAL GROUNDWATER INVESTIGATION WORK PLAN FOR  
IRP SITES 9, 12, AND 13 AT THE LONG BEACH NAVAL SHIPYARD, LONG  
BEACH CALIFORNIA (FILE No. 90-76)**

We have received and reviewed the Draft Addendum to the Final Groundwater Investigation Work Plan for IRP Sites 9, 12, and 13, at the Long Beach Naval Shipyard, dated December 18, 1997. The workplan is intended to determine the source and extent of chlorinated VOC-impacted soil at IRP Site 9. Staff also discussed the contents of the workplan with the Navy, their contractors, DTSC, and EPA, during a technical workshop held in November, 1997. Based on the above, we have no objection to the workplan being implemented at this time.

If you have any questions regarding the above, please contact Hugh Marley at (213) 266-7669.
