Dear Mr. James:

This letter addresses the groundwater monitoring program for the Mare Island Sanitary Landfill under Interim Status Document No. CA 7170024775 and your File No. 2129.2011B.

Your letter of 7 December 1984, File No. 2129.2011B (LWT) requested that new groundwater monitoring wells be installed by 31 January 1985 and that results of the initial groundwater analyses be provided by 15 March 1985. As indicated in our letter, Serial 445/82 of 19 February 1985, the wells have been installed. Groundwater samples were collected from the new wells by certified commercial laboratory personnel on 5 March 1985. However, laboratory personnel note that time requirements for required analyses are as long as two weeks; they propose a laboratory report completion date of 22 March 1985. Please extend the Shipyard's submission date for results of groundwater monitoring to 29 March 1985.

The Shipyard representative in this matter is Mr. Ralph Lee, Code 445, telephone number (707)-646-2421/2432.

Sincerely,

H. R. FRAUENFELDER  
CAPT, CEC, USN  
Public Works Officer  
By direction of the Shipyard Commander
