Mare Island Navy Draft Final Letter Report, Groundwater Sampling for Perchlorate at Investigation Area F1, dated October, 2004

Dear Mr. Dunaway:

The Department of Toxic Substances Control has reviewed the subject document. DTSC agrees that further testing for perchlorate at the sample locations in Investigation Area F1 is not warranted at this time based on the subject document. Investigation Area F1 is currently undergoing a remedial investigation, and potential sources or data gaps identified through this process and associated regulatory review may necessitate additional sampling for perchlorate in the future.

Should you have any questions regarding this letter, please call me at (510) 540-3773.

Sincerely,

Chip Gribble
Remedial Project Manager
Base Closure Unit
Office of Military Facilities
