San Diego, CA 92108-4301

**Subject:** Comments on the *Site Investigation Report for Building A155*, Mare Island, Vallejo, California

Dear Mr. Bloom:

We understand from our July 13, 2006 meeting that a time critical removal action is being planned for Parcel 1 that will improve soil quality at the site and will modify data presented in the site investigation report. Since content of the subject report will be revised by the time critical removal action, we plan to review site investigation data for the site (contained in the subject report and generated by the time critical removal action) following completion of the removal action activities. Environmental screening for petroleum hydrocarbons that may be conducted during the time critical removal action should be consistent with our comments in a July 17, 2006 letter pertaining to the *Draft Technical Memorandum Evaluation and Approach for TPH Screening Criteria for Soil and Groundwater* report, dated October 28, 2003.

Please contact Brian Thompson via phone at (510) 622-2422 or via email at [brthompson@waterboards.ca.gov](mailto:brthompson@waterboards.ca.gov) if you have any questions.

Sincerely,

Brian Thompson, CHG, CEG  
Engineering Geologist
