Subject: Re: Draft Proposed Plan Former Northern Building Ways, IA A2, Mare Island, Vallejo, CA - Comments?

Julian,

I only have one comment on the subject document.

It is understood that this Proposed Plan and RAP does not cover TPH or PCB issues. TPH and PCB remedial actions are not discussed until Page 3 and 4 of the PP. A sentence should be added to the first section that mentions that this PP does not address/cover TPH or PCB issues. By acknowledging this at the very beginning of the PP, it would make it clear that the Navy isn't trying to bury the TPH and PCB issues at the back of this PP.

Regards,
Paisha
