Anthony Megliola
Department of the Navy
BRAC Program Management Office West
1455 Frazee Road, Suite 900
San Diego, California 92108

Dear Mr. Megliola:

Department of Toxic Substances Control and San Francisco Bay Regional Water Quality Control Board staff have completed their review of the *Final Action Memorandum, Building 742 Former Degreasing Plant, within Investigation Area C2 at the Former Mare Island Naval Shipyard, Vallejo, California* dated April 19, 2010 (Final AM). The Final AM documents the Department of Navy's selection of a removal action alternative to address groundwater and soil vapor contamination at the Building 742 Former Degreasing Plant site.

The Final AM adequately addresses both DTSC and Water Board comments. DTSC previously concurred with the proposed cleanup alternative described in the *Engineering Evaluation/Cost Analysis/Interim Removal Action Work Plan for Building 742 Former Degreasing Plant, Mare Island Naval Shipyard, Vallejo, California* on November 5, 2009.

If you have any questions, please contact Janet Naito of my staff at (510) 540-3833 or jnaito@dtsc.ca.gov.

Sincerely,

Barbara J. Cook, P.E.
Acting Assistant Deputy Director
Brownfields and Environmental Restoration Program – Berkeley Office
