A Vallejo cabby was carjacked by two fares Wednesday who took his cab, wallet and cell phone, police said.

The driver, who works for City Cab out of Vallejo, picked up the men at the Relax Inn on Mariposa Street at 5:10 a.m. before driving them to the 7-Eleven on Magazine Street, police said.

There, one of the men pulled out a firearm, ordered the driver out and stole the vehicle, Sgt. Jeff Bassett said.

The suspects were last seen driving

### SETTING IT STRAIGHT

A front-page article Wednesday about local Census numbers should have reported that Benicia Mayor Elizabeth Patterson thinks future growth would be infill downtown but would be limited due to the historic district, existing height limitations and other concerns.

A front-page article Tuesday about a Vallejo boy killed Jan. 29 vehicle rollover on a Wyoming highway should have indicated that the driver of the vehicle has been charged with misdemeanor "homicide by vehicle" for allegedly driving in a criminally negligent manner. The driver, 24-year-old Brian Baring of Vallejo, also was allegedly driving on a suspended license. The case is pending, according to the Uinta County, Wyo., District Attorney's Office.

The Times-Herald regrets its errors.

#### NOTICE OF AVAILABILITY AND PUBLIC COMMENT PERIOD MUNITIONS NON-TIME-CRITICAL REMOVAL ACTION PRODUCTION MANUFACTURING AREA AND SOUTH SHORE AREA FORMER MARE ISLAND NAVAL SHIPYARD, VALLEJO, CALIFORNIA

The Department of the Navy, in coordination with state and federal environmental regulatory agencies, is announcing the public availability of the Engineering Evaluation Cost Analysis (EECA)/Interim Remedial Action Plan (IRAP) for the Munitions Non-Time-Critical Removal Action at the Production Manufacturing Area (PMA) and South Shore Area (SSA) located on the Former Mare Island Naval Shipyard (MINS) in Vallejo, California. Former MINS is located 25 miles northeast of San Francisco. The PMA and SSA are located at the southern end of former MINS. The sites were formerly used to manufacture and store munitions and munitions constituents. Previous munitions removals have been conducted at the sites since base closure in 1996. Possible remaining munitions and munitions constituents at the sites may pose a threat to human health and the environment. Surveys have been performed to detect metallic objects in the subsurface, which could represent potential munitions. The areas where the survey identified subsurface metal are called anomalies. The EECA/IRAP recommends excavation and removal of the anomalies in the areas most likely to contain potential munitions.

#### PUBLIC COMMENT PERIOD

The EECA/IRAP is available for public review, and the Navy will accept comments during the 30-day public comment period held from March 7, 2011 through April 4, 2011. Public comments submitted in writing must be postmarked or e-mailed no later than April 4, 2011. Please send all comments to the Navy Base Realignment and Closure, Environmental Coordinator, Ms. Janet Lear, 1455 Frazee Road, Suite 900, San Diego, California 92108-4310, (619) 532-0976, (619) 532-0780 (fax), or janet.lear@navy.mil.
