Subj: SCAPS SITE CHARACTERIZATION SUMMARY REPORT

Encl: (1) Summary Report

1. Enclosure (1) is the Summary Report of a site characterization using the Site Characterization and Analysis Penetrometer System (SCAPS) at Mare Island Naval Shipyard in Vallejo, California. The SCAPS was used to conduct a subsurface investigation of petroleum contaminants in the vicinity of four former waste oil disposal sumps located at Installation Restoration site 02 (IR02). The Summary Report includes details and results of the field operations and SCAPS data profiles, and is submitted for your review.

2. Should you have any questions regarding this matter please contact Mr. Robert Stettler at (619) 524-6946.
