

DEPARTMENT OF THE NAVY

NAVAL AIR STATION  
MOFFETT FIELD, CA 94035-5000

IN REPLY REFER TO:  
5090  
Ser 00/2988

15 SEP 1987

California Department of Fish and Game  
Attn: Pete Bontadelli  
Head of Fish and Game  
1416 9th Street  
Sacramento, CA 95814

Dear Mr. Bontadelli:

As you are aware, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) of 1980 was amended by the Superfund Amendments and Reauthorization Act of 1986 on 17 October 1986. Naval Air Station, Moffett Field is in the process of scoping plans for remedial investigation of the release of hazardous substances on the Air Station to comply with the requirements of CERCLA, as amended.

An essential step on this process is the identification of any requirements, standards, criteria, and/or limitations which the California Department of Fish and Game believes are legally applicable or relevant and appropriate to the Navy's response under CERCLA, as amended to any hazardous substances on the Air Station. Accordingly, I request you identify in writing such applicable or relevant and appropriate requirements, standards, criteria, and/or limitations for me.

In your response, please provide me with citations of authority for any requirements, standards, criteria, and/or limitation you identify which are contained in Federal and/or State law and/or regulations. In addition, please provide me with copies of documents which set forth any standards, criteria, and/or limitations which are not contained in Federal or State law or regulations.

In order to include your input in plans currently being prepared, I would appreciate a response by 15 October 1987. Should you have any questions, my point of contact for this matter is Ms. Louise Lew at (415)877-7497 or Ms. Chloe Jue at (415)877-7494.

Sincerely,

C.T. MOYER III
