San Jose, CA 95118

Dear Sir:

In reference to your letter of October 7, 1987, we share your concern about the potential threat of cross-contamination of groundwater via our Wells 14M1 and 14M2. Thank you for your offer of assistance.

To avoid any further delays, we would like to propose a meeting to coordinate the sealing process and obtain further details. Once the total estimated cost is known, we can seek funding for the actual sealing.

If you have any questions, please contact Ensign John Heckmann at (415) 966-5330.

Sincerely,

C. T. MOYER III
