SUBJECT: State ARARs for Site 22 Landfill Record of Decision

Dear Mr. Lansdale:

This letter responds to your November 14, 2001 E-mail regarding the Regional Water Quality Control Board's position on the inclusion of the Basin Plan as an applicable regulation governing monitoring at the proposed Site 22 landfill. Specifically, the Navy asked whether the Water Board will compromise to specify that only Chapter 2 of the Basin Plan applies to this site.

We have stated our position several times already during teleconferences, BCT meetings and in our written responses to comments. This issue is not negotiable, as we cannot change or alter the applicability of this regulation. We have clearly presented acceptable language in our October 14 revision of the Navy's revised language for the Record of Decision. Moreover, we have made it clear that Title 27 also applies to Site 22, and this is also not negotiable. Due to the nature of this issue, the Division Chief has instructed staff not to spend any more time discussing compromise language for this Record of Decision.

Please contact me at (510) 622-2353 or E-mail at: avc@rb2.swrcb.ca.gov.

Sincerely,

Adriana Constantinescu, RG.

Diane, here is the last of the things to include in the Moffett Site 22 AR. It is a letter from the Water Board and their comments on the Site 22 Draft ROD. I will send you the signed hard copy of the attached Water Board letter.

V/r,
Wilson
