Subject: EPA Concurrence- Site 22 ROD revisions

Hi Lawrence,

Thank you for providing the written modifications to the Draft Final ROD for Site 22. These changes are acceptable to EPA. Please incorporate these changes throughout the ROD and issue the Final ROD for signature. We appreciate the Parties working together to resolve these issues.

Sincerely,

Alana Lee

EPA Project Manager, Moffett Federal Airfield

Subject: Site 22 ROD revisions

BCT:

Please find attached modifications to the Moffett Draft Final Site 22 ROD. The changes include additional institutional controls and switching from CCR Title 22 to Title 27 for groundwater monitoring. Note that sections 20380 and 20415 (a), and 20425 (a) were not included since they all deal with applicability, although the section is already included as an ARAR.

Section 9.1, the "No Action" alternative will also be changed to remove monitoring and institutional controls to reflect "no action".

We are in the process of incorporating these substitutions throughout the document. If these changes are not acceptable, please notify me by Monday April 1, 2002. Otherwise we proceed and issue a Final ROD for your signature.

<<Section 9.2.3.doc>> <<ARARs Table.doc>>
