## SCHOOLS BRIEFS

### Leiderman, Bechtel and Plotkin win FHDA seats

Incumbent Andrea Leiderman, Palo Alto civic leader Betsy Bechtel and Foothill College graduate Hal Plotkin will help direct the Foothill-De Anza Community College District Board of Trustees for the next four years.

The three winners will be seated next month when board president Mary Mason and member Judith Moss complete their terms.

Incumbent Leiderman, 44, promised to fight state funding cuts and to bring a new approach to the way district meetings are conducted.

Bechtel, 63, wants to strengthen the district's fund-raising efforts to help cushion the blow of cuts in education funding.

Plotkin, 46, plans to work toward a more efficient district. During his campaign, he suggested that students download textbooks and material in the public domain as one cost-cutting move.

### MVHS and LAHS to hold information nights

Child care and Spanish language translation will be available at both sites.

For more information, call Keith Moody at Mountain View High School, 940-4604, or Cristy Dawson at Los Altos High School, 960-8875.

### Blach students sell holiday goods

The public is invited to the Blach Holiday Faire Dec. 5, 12:30-4 p.m., on the campus of Blach Middle School, 1120 Covington Road, Los Altos.

Blach students will offer hand-crafted goods for sale as they learn about running a business. Items for sale will include gifts and decorations, including jewelry, hair and clothing accessories, candles, candy, food items, toys and holiday decorations.

The Holiday Faire is a great opportunity for students to learn about creating, marketing and selling a product of their own design. Each participating student will rent a booth for a \$4 fee. Students are responsible for product development, pricing, packaging and sales plans. Students earn money for themselves and return 10 percent of profits to Blach.

For more information, call Anky van Deursen at 965-2479.

### Environmental volunteers needed

Environmental Volunteers is looking for recruits. All volunteers are trained in the Environmental Volunteers San Jose State University-accredited training program, and they do not need prior experience or knowledge.

Volunteer opportunities are available during the week and on weekends.

Environmental Volunteers share the wonders of natural science with 1,500 Los Altos schoolchildren every year. They do this through hands-on, inquiry-based classroom teaching about one of eight topics

concerning local ecology, followed by a field trip to a local preserve.

Following are the names and start dates of upcoming training sessions for volunteers: foothill ecology, Jan. 13; bay ecology, Feb. 21, 2004; "Early California Indians: An Environmental Perspective," March 9, 2004.

### Public Comment Period for the Hangar 1 Administrative Record File (Former Naval Air Station Moffett Field) November 14 to December 15, 2003

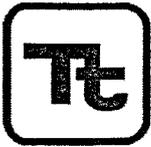

The U.S. Department of the Navy invites the public to review the Administrative Record File for the NAS Moffett Field Hangar 1 project. The Administrative Record File contains the Action Memorandum and other documents related to the Navy's interim cleanup action at Hangar 1.

Hangar 1 was identified as a source of PCBs by the National Aeronautics and Space Administration's Ames Research Center (NASA) when PCBs were found in sediment surrounding NASA's storm water settling basin (located in the Eastern Diked Marsh). It was determined that PCBs from Hangar 1 were passing through the storm drain system and into the Eastern Diked Marsh. The Navy, with concurrence from NASA and regulatory agencies, determined an interim cleanup action would be taken to protect human health and the environment until a final remedy can be determined. The interim cleanup action is designed to:

1. stabilize PCB-containing materials on the exterior of Hangar 1 through the application of an exterior coating, and
2. limit public access to Hangar 1 through installation of a fence around the site and limiting worker access.

The public can review the Administrative Record File for Hangar 1 at the Mountain View Public Library, 585 Franklin Street, Mountain View, CA 94041; (650) 903-6877. Comments on the Administrative Record should be directed to: Ms. Andrea Espinoza, BRAC Environmental Coordinator, Southwest Division Naval Facilities Engineering Command, 1230 Columbia Street, Suite 1100, San Diego, CA 92101, or via e-mail to: [andrea.espinoza@navy.mil](mailto:andrea.espinoza@navy.mil) or by phone at: (619) 532-0911. Comments provided to the Navy during this time period will be responded to and included in the Hangar 1 (interim cleanup action) Construction Completion Report that will be published in early 2004.
