Protection

MEMORANDUM

TO: Mr. Juan Jimenez
Remedial Project Manager

FROM: Ms. Marsha Mingay *mm*
Public Participation Specialist

DATE: March 25, 1999

SUBJECT: PUBLIC PARTICIPATION COMMENTS ON THE REVISED DRAFT
RECORD OF DECISION/REMEDIAL ACTION PLAN FOR OPERABLE
UNIT 3, MOFFETT TRENCHES AND CRASH CREW BURN PITS SITE

Thank you for the opportunity to review and comment on the above referenced document. The following comments are forwarded for your review. If you have any questions, please contact me at 714-484-5416.

1. Section 3
It is suggested that this section list all those activities conducted as a result of community inquiry. This list would include, in addition to the Flood Control Channel Study, the future study to determine when the containment wall could be safely removed (see page 9-1).
2. Page 5-3
A note should be added to the table which explains that the samples were collected prior to the addition of soil. This will clarify that the samples at 10 and 15 feet bgs (see column headings) were taken prior to the fill being added to the site.
3. Page 8-6; Implementability; third paragraph
Please state the process that Orange County Health Care Agency will use to notify DTSC about any future well permit application they may receive.
4. Page 19, Response to Comments
On this page and throughout the document please correct the year associated to the finalization of the U.S. Army Corps of Engineers study. The text reads "1988" versus the correct date "1998".

Mr. Jimenez
March 25, 1999

5. Page 20 -21, Response to Comments
Comment 2c is requesting information on the contingency plan. It is suggested that the written response be more clearly worded and precise regarding this request for information. Additionally, the text could state that the military will cooperatively work with all stakeholders in finalizing future documents associated with this site.

6. Page 25, Response to Comments
Since the fact sheet does not mention that additional wells will be placed downgradient from the main site, please ensure that this is mentioned in the upcoming Restoration Advisory Board meeting which addresses this site. VERIFIED

7. Page 28, Response to Comments
The last sentence is not correct. Please change the sentence to read, "Therefore, individual responses were not necessary."
