Final West Side Groundwater Site Characterization Report
NAS Moffett Field, California
Task Order K-04; IT Project No. 409729

Dear Paula:

Three copies of the subject report are enclosed. This document has been prepared in response to, and includes revisions based on comments and input made by you and the Navy.

In addition, the comment from U.S. EPA/SAIC dated November 6, 1992 has also been addressed. The comment was in response to the draft change pages submitted to the U.S. EPA, Department of Toxic Substance Control (DTSC) and California Regional Water Quality Control Board (CRWQCB) on October 16, 1992.

By copy of this letter, I am also distributing this report as attached. If you have any questions, please call.

Sincerely yours,

C. Keith Bradley
Project Manager
