Mr. Stephen Chao  
Naval Facilities Engineering Command  
Western Division  
900 Commodore Way, Bldg. 101  
San Bruno, CA. 94066

Re: Draft Final Additional Investigation of Inferred Sources  
Field Investigation Work Plan, dated August 6, 1993

Dear Mr. Chao,

The U.S. Environmental Protection Agency (EPA) has received and reviewed the subject document and its associated response to comments. One question must be addressed before EPA can approve this document as final. Table 1 shows Building 146 not requiring any further action. Yet the response to comment #4 includes this building as a part of the transportation yard. Please include language such as "Include as part of transportation yard" under the Recommended Action column for Bldg. 146. Call me at 415-744-2383 if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Michael D. Gill".

Michael D. Gill  
Remedial Project Manager  
Federal and Technical Programs Branch
