Re: Draft Operable Unit 5 Proposed Plan, dated October, 1993

Dear Mr. Chao,

The U.S. Environmental Protection Agency (EPA) has reviewed the subject document. Due to the resolution of the informal dispute regarding the OU5 Remedial Investigation report and the fact that the Navy will be performing a Feasibility Study, EPA does not feel comments on this proposed plan are valid at the present time. As discussed during the RPM meeting of November 10th, when the draft FS is released on February 1, 1994, it should be accompanied by an updated draft proposed plan. Call me at 415-744-2383 if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Michael D. Gill".
