Subject: Final Title Pages for Two Beryllium-Related Reports
Operable Unit 2, Naval Air Station Moffett Field
CLEAN Contract Number N62474-88-D-5086, Contract Task Order 0236

Dear Stephen and Camille:

Enclosed are three copies of replacement title pages for the following two reports prepared by PRC Environmental Management, Inc. (PRC) for Naval Air Station (NAS) Moffett Field.

- Draft Statistical Analysis of the Occurrence of Beryllium in Soils Technical Report, September 1993
- Draft Evaluation of Potential Risks Associated with Dermal Exposure to Beryllium from Soils at NAS Moffett Field OU2, August 30, 1993

These reports were accepted by the U.S. Environmental Protection Agency (EPA) in a letter by Mr. Michael Gill dated October 15, 1993. EPA did not require resubmittal of these draft reports so the reports will become final versions. Please insert the enclosed final title pages in place of the existing draft title pages in these two reports. Final title pages have been forwarded to the recipients of the draft reports.

If you have any questions, please call me at (303) 295-1101.

Sincerely,

Timothy E. Mower
Geotechnical Engineer

TEM/mkf
