May 10, 1994

Mr. Stephen Chao
Naval Facilities Engineering Command
Western Division
900 Commodore Way, Bldg. 101
San Bruno, CA. 94066

Re: Final Additional Investigation of Inferred Sources Technical Memorandum,
dated April 18, 1994

Dear Mr. Chao,

The U. S. Environmental Protection Agency (EPA) has received and reviewed the subject document and associated response to comments and hereby approves it as final. It is important to keep the regulatory agencies aware of the status of these areas through groundwater monitoring around Buildings 251, 292 and 544 (Transportation Yard) and the progress of NASA's design of an A1 aquifer extraction system to address contamination in the northern Site 8 area. Call me at 415-744-2383 if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Michael D. Gill".

Michael D. Gill
Remedial Project Manager
Federal Facilities Cleanup Office
