San Bruno, California 94066-0720

Dear Mr. Chao:

This letter contains NASA's comments on the *Moffett Federal Airfield Superfund Site Proposed Plan for OUI Landfills remedy*, dated May/June 1995 as described below.

1. Alternative 2 is acceptable to NASA only if the Bay Conservation and Development Commission (BCDC) concurs that it is consistent with the San Francisco Bay Plan. NASA would like assurance that the remedy selected is acceptable to the state and any tideland trust concerns they may have. Therefore, NASA requests that the Navy submit a Consistency Determination to BCDC for concurrence.
2. Any wetland mitigation plans to increase or maintain wetlands should be closely coordinated with NASA.

Thank you for the opportunity to comment on this draft plan. Please call me at (415) 604-3355 if you have any questions or comments.

Sincerely,

A handwritten signature in cursive script that reads "Sandra Olliges".
