Review Copies

***Recommendations for Corrective Action at the IRP Petroleum Sites,
Moffett Federal Airfield***

Dear Messrs. McGee and Glick:

As we agreed at the Moffett Field Restoration Advisory Board (RAB) Technical, Historical, and Educational (THE) Committee meeting last night, I am sending each of you a copy of the following PRC Environmental Management, Inc., report:

- *Recommendations for Corrective Action at the IRP Petroleum Sites, Moffett Federal Airfield* dated September 1, 1995.

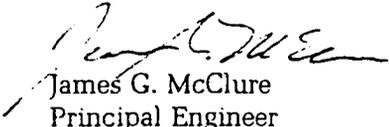

As we discussed, the THE Committee has been requested by Leslie Byster and Peter Strauss of the RAB to review this document. They have expressed particular concern over the potential for catastrophic failure of the four very large, partially below ground fuel storage tanks at Moffett Field Site 5.

I spoke with Michael Bessette earlier today about the status of the Regional Water Quality Control Board's (RWQCB) review of the report. He said that he expected to discuss the report with Joseph Chou of the Department of Toxic Substances Control (DTSC) and begin his review next week. He thought it would be a good idea for you to call him directly, mid-to-late next week, to coordinate your review and comment schedules. His direct-dial telephone number is (510) 286-1028.

Thank you for agreeing to review this report on behalf of the THE Committee. If you have any questions, please call me direct at (415) 884-3280.

Yours very truly,

HARDING LAWSON ASSOCIATES
