Dear Ms. Chow:

Enclosed, please find one copy of the "*Surface Soil Sampling Workplan, PCB Investigation at Area of Investigation 6.*" The purpose of this investigation is to further characterize the near surface distribution of PCBs in soil at the Lindbergh Avenue Storm Drain Channel in Area of Investigation 6.

If you have any questions or need additional information, please contact me at (650) 604-3355.

A handwritten signature in cursive script that reads "Sandra Olliges".

Sandra Olliges
