To: Distribution

Subj: TRANSMITTAL OF SITE 3 PILOT TEST FIELD WORK PLAN, NAVAL FUEL DEPOT  
POINT MOLATE, RICHMOND, CALIFORNIA

Encl: (1) Site 3 Product Recovery Pilot Test, Field Work Plan, Naval Fuel Depot Point Molate,  
Richmond, CA dated April 24, 1998

Enclosure (1) outlines the field work plan for the Phase I Pilot Test at Site 3. Due to schedule and other considerations, Section 2.1, installation of horizontal wells, will be deleted from the work plan. Rather, it will be considered for the Phase II work. In place of the horizontal well, the Navy plans to incorporate a large manhole-sized sump, located near the proposed horizontal well near Tank E, and use it to conduct product recovery using skimmers.

If there are any questions regarding this document, please contact Mr. Dave Song at (650)244-2591.
