Mr. Phillip Dyck  
BRAC Environmental Coordinator (BEC)  
Naval Training Center (NTC) Environmental Officer  
Naval Training Center  
33502 Decatur Road, Suite 120  
San Diego, California 92133-1449

Dear Mr. Dyck:

**RE: DRAFT WORK PLAN FOR EXTENDED SITE INSPECTION, INACTIVE  
LANDFILL, NAVAL TRAINING CENTER, SAN DIEGO**

The Regional Water Quality Control Board (RWQCB) staff has completed its review of the preliminary data collected as part of the CPT/Hydropunch investigation, and the Navy's response to the RWQCB and Department of Toxic Substance Control (Department) comments regarding the proposed installation of shallow and deep monitoring wells at the inactive landfill, Site 1 NTC. Based on this review and with the concurrence of the Department, the RWQCB approves the start of monitoring well installation field work.

Please provide me with a daily update of the field work progress at the end of each day either verbally or by FAX.

The RWQCB and Department expect to finalize its response to the Navy's "comment resolution sheet" by March 21, 1995. The remaining field work can be started after final regulatory approval of the work plan.

If you have any questions or changes regarding the field work please contact me at (619) 467-2980.

Very truly yours,

A handwritten signature in cursive script that reads "Corey Walsh".

Corey Walsh  
Associate Engineering Geologist  
Site Mitigation & Cleanup Unit
