RE: Draft BCP Update #2 for Naval Training Center, San Diego

Dear Mr. Dyck:

EPA has reviewed the Draft BCP Update #2 for Naval Training Center, San Diego. EPA was very pleased with the quality of the document and with the Navy's responses to our comments on the working draft. I have only one minor comment which is a follow up to a comment on the working draft. This comment is presented below.

Comments on BCP:

1) Original EPA comment of November 27, 1995: "Page 3-26, Section 3.4.8, second paragraph. Should actually reference and quote CERFA non-concurrence letter from State. The statement "...may be unable to concur..." is not accurate - the state did not concur in writing at time of CERFA designation." The wording changes that have been made to page 3-26, Section 3.4.8, paragraph 2 of the draft BCP update #2 are an improvement. However, the date of the state's non-concurrence letter should be referenced as well as the fact that the non-concurrence letter was from state regulators. As it appears now, the term "regulators" may be misinterpreted to include federal EPA.

Should you have any questions about these comments, please do not hesitate to contact me at (415) 744-2409.

Sincerely,

Claire Trombadore
Remedial Project Manager
