

**Errata Sheet for  
 Final Comprehensive Site Assessment Report  
 for Points of Interest at Naval Training Center  
 San Diego, California  
 CTO-0082  
 September 17, 1996**

This errata sheet pertains to the Final Comprehensive Site Assessment Report for Points of Interest at Naval Training Center San Diego, California, issued in July 1996. Department of Toxic Substances Control (DTSC) sent a letter on August 16, 1996, to Department of the Navy (Attachment A) in which they concurred with the no further action (NFA)/further action (FA) recommendations for all POIs in the Final POI Report, with the exception of the recommendations of NFA for POIs 8, 13, and 19. Therefore, based on regulatory agency concerns, a recommendation of FA for POIs 8, 13, and 19 will be made.

The following sections of the Final POI Report are revised as indicated:

Section Number and/or Attachment	Page Number	Revision
Section 1	1-9	For POIs 13, 8, 19, the action is changed from NFA to FA.
Attachment A, Section 3	3-2	Table 3-1: for POI 13 Recommended Further action is changed from no to yes, and the comment number is changed from 3 to 6.
Attachment A, Appendix A	A-17	The checked box for No Further Action Recommended is changed to Further Action Recommended. The Likelihood of release and Reason sections are changed to: the available information are not sufficient to exclude a possible release of hazardous substances. therefore the recommendation has been changed from no further action to further action.
Attachment B, Section 3	3-2	Table 3-1: for POIs 8, 19, Recommended Further Action has been changed from no to yes, and the comment number is changed from 3 to 6.
Attachment B, Appendix A	B-3	The checked box for No Further Action Recommended is changed to Further Action Recommended. The Likelihood of release and Reason sections are changed to: Due to the substances used in a dry cleaning process, even if the available information indicate that the wastes/material were properly managed, a release of hazardous substances is possible, therefore the recommendation has been changed from no further action to further action.
Attachment B, Appendix A	B-10	The checked box for No Further Action Recommended is changed to Further Action Recommended. The Reason section is changed to: the available information are not sufficient to exclude a potential of hazardous substances release. therefore the recommendation has been changed from no further action to further action.
