San Diego, California 92133-5000

**DRAFT FOCUSED SITE INSPECTION REPORT, NAVAL TRAINING CENTER,
SITE 6, GOLF COURSE MAINTENANCE SHOP (BUILDING 516), SAN DIEGO,
CALIFORNIA**

Dear Mr. Forman:

This is regarding the draft Focused Site Inspection (FSI) Report for the Naval Training Center, San Diego, Site 6, Golf Course Maintenance Shop (Building 516). The Department of Toxic Substances Control (DTSC) and the Regional Water Quality Control Board, San Diego (RWQCB) have completed review of the draft FSI for Site 6 and the revisions that the Navy has provided to DTSC and the RWQCB via fax.

The objective of the focused site inspection was to determine whether a hazardous substance release occurred at the site by collecting and analyzing soil and groundwater samples, and to assess the potential for human and environmental exposure to hazardous substances. Based on review of data from soil and groundwater analysis from Site 6 and the revisions that the Navy has provided per our comments to the draft FSI report, DTSC and RWQCB concur with the Navy's recommendation of no further action for this site.

A final FSI report will be transmitted to regulatory agencies when completed. If you should have any questions regarding this matter, please call me at 310-590-5563.

Sincerely,

Alice Gimeno
