**REVIEW OF NAVY RESPONSE TO REGULATOR COMMENTS FOR
DRAFT PRELIMINARY EVALUATION REPORT, POINTS OF
INTEREST GROUP C AND DRAFT SITE ASSESSMENT REPORT
GROUP D POINTS OF INTEREST FOR NAVAL TRAINING CENTER,
SAN DIEGO, CALIFORNIA**

Dear Mr. Forman:

The Department of Toxic Substances Control (DTSC) and the Regional Water Quality Control Board, San Diego (RWQCB) have completed review of the Navy responses to regulator comments to the draft reports for Groups C and D Points of Interests (POI). The response to comments letter was received via fax on July 3, 1996.

Several comments were further discussed with Southwest Division's remedial project manager, Content Arnold, on July 10, 1996. It was indicated that POI 14 will be changed from a "no further action" recommendation to a "further action" recommendation. Also, comment number six for Group D, POI 46 will be further researched to determine the potential origin of the trichlorofluoromethane detected in the soil. DTSC and RWQCB would also like to see stronger supporting discussions regarding interpretations of the geophysical results. Otherwise, the remaining comments have been adequately addressed.

I will be out of the office from July 12-29, 1996. If you should have any questions regarding Group C and D POIs, please contact Mr. Corey Walsh of the RWQCB at (619) 467-2980.
