Subj: CHANGES TO THE 22 OCTOBER 1996 DRAFT REMEDIAL INVESTIGATION (RI)
REPORT FOR NAVAL STATION TREASURE ISLAND (NAVSTA TI)

Ref: (a) EFA West ltr Ser1832.5 EG/7020 dtd 22 Oct 1996

Encl: (1) Appendix D pages D-22 (Figure D-8) and D-28 (Figure D-13)
(2) Appendix F pages F-15 through F-65

1. In the ongoing review of the draft RI report submitted in reference (a), the Navy regrets to inform you that a few discrepancies were noted. These discrepancies will be corrected in future editions of the RI report; however, it may be useful for your review to be aware of them.

2. The discrepancies are as follows:

- a) In the color figures depicting the TPH Immunoassay results at IR Sites 05 and 11 (Figures 7-4 and 11-9), the green and blue colors in the legend are reversed. In these figures, green represents non-detected results and blue represents detected mid-range results. The figures for IR Sites 07/10, 09, 12, and 17 are correct.
- b) In the Table of Contents, the Title for Appendix K is incorrect. The correct title should be "Monitoring Well Groundwater Data."
- c) Two pages were omitted from Appendix D, pages D-22 and D-28. The omitted pages are submitted as enclosure (1).
- d) Several pages were omitted from the end of Appendix F. These pages starting with F-15 represented the figures, tables, probability plots, and the attachments for the appendix. The omitted pages are submitted as enclosure (2).

3. The Navy apologizes for the inconvenience this has caused you. Thank you for your guidance and involvement in this project. For further information, please call me at (415) 244-2560.
