**Re: Comments on Draft Additional Characterization of Total Petroleum Hydrocarbons at Site 12 - Old Bunker Area, Soil and Groundwater Sampling Results Technical Memorandum (dated January 7, 1999)**

Dear Mr. Galang:

Thank you for the opportunity to review the above-referenced document. Regional Water Quality Control Board, San Francisco Bay Region (RWQCB) staff comments are presented below.

The RWQCB concurs with the recommendations for Locations 12-HP027, -HP048, and -HP124. At Location 12-HP124, it is the RWQCB's understanding that the Navy continues to prepare an analysis and workplan for a TPH removal action. For those locations for which the Navy is proposing no further action, the Navy should present an analysis to support this recommendation by addressing the low-risk fuel site criteria on a point-by-point basis.

If you have any questions regarding these comments, please call me at 510-622-2377.

Sincerely,

David F. Leland, P.E.
