Berkeley, CA 94710-2737

Dear Ms. Sunga,

SUBJECT: TRANSMITTAL OF THE FINAL FEASIBILITY STUDY – SITE 27, CLIPPER COVE
SKEET RANGE, NAVAL STATION TREASURE ISLAND, SAN FRANCISCO,
CALIFORNIA

This letter transmits the Final Feasibility Study (FS) Report for the Remedial Investigation at Installation Restoration Site 27 at former Naval Station Treasure Island, San Francisco, California.

This Final FS has been revised since the issuance of the Second Revised Draft FS in December 2008. The changes made are a reflection of the many meetings, discussions and incorporation of comments from not only the BRAC Cleanup Team and the Restoration Advisory Board (RAB), but also the Treasure Island Development Authority, San Francisco Bay Conservation and Development Commission (BCDC), California Department of Fish & Game, Treasure Island Enterprises LLC (TIE) and their colleagues.

The Navy is appreciative of the efforts that have gone into making this FS a truly collaborative experience and look forward to a successful Proposed Plan and Record of Decision.

Thank you for your continued support of this program. Should you have any questions or need additional information, please contact Lora Battaglia, Remedial Project Manager at (619) 532-0968 or Mr. David Clark, Lead Project Manager, at (619) 532-0973.

Sincerely,

JAMES B. SULLIVAN
BRAC Environmental Coordinator
By direction of the Director
