FINAL SAMPLING AND ANALYSIS PLAN (FIELD SAMPLING AND QUALITY ASSURANCE PROJECT PLAN) GROUNDWAER MONITORING PROGRAM IR SITES 12 AND 6 AT NAVAL STATION TREASURE ISLAND, SAN FRANCISCO, CALIFORNIA

Dear Mr. Sullivan:

The Department of Toxic Substances Control (DTSC) has received and reviewed the October 3, 2008 "*Final Sampling and Analysis Plan (Field Sampling and Quality Assurance Project Plan) Groundwater Monitoring Program IR Sites 12 and 6*" (Groundwater Monitoring SAP) for Naval Station Treasure Island, San Francisco, California. The Groundwater Monitoring SAP was prepared by Trevet Environmental Consultants and Engineers for the U.S. Department of the Navy (Navy). Based on our review, DTSC does not have any additional comments at this time and the Groundwater Monitoring SAP is adequate for the proposed work.

Please contact me at (510) 540-3775 if you have any questions.

Sincerely,

Ryan Miya, Ph.D.  
Senior Hazardous Substances Scientist  
Brownfields and Environmental  
Restoration Program - Berkeley Office
