SUBJECT: TRANSMITTAL OF THE FINAL SCREENING-LEVEL ECOLOGICAL
RISK ASSESSMENT AND LOW-THREAT CLOSURE EVALUATION FOR
SITE YF3, FORMER NAVAL STATION TREASURE ISLAND,
SAN FRANCISCO, CALIFORNIA

Enclosed for your use is the Final Screening-Level Ecological Risk Assessment and Low-Threat Closure Evaluation for Site YF3, Former Naval Station Treasure Island, San Francisco, California. This Report presents the methodology and results of the screening-level ecological risk assessment (SLERA) conducted for Site YF3 on Yerba Buena Island (YBI). Please note that sections 2.2 and 2.3 were reorganized so that the presentation of the environmental setting (previously section 2.3) is now before previous investigations (previously section 2.2) as requested by TIDA comment #21.

Thank you for your support of this program. The Navy is developing plans for our next step at Site YF3 which includes gathering additional data at the site. Ultimately, the Navy will be producing a Baseline Ecological Risk Assessment (BERA).

For further information, please contact Louie Cardinale at (619) 532-0979, or me at (619) 532-0913.

Sincerely,

KEITH FORMAN
BRAC Environmental Coordinator
By direction of the Director
